## RACIONALE

You must understand desire in order to teach it.

Desires are a means to an end, not an end in themselves.

Every artisan must aquire the tools of his vocation.

If his name is forgotten, he will cease to exist

Your work is more important than anything except your worship of Set.

Your preists are disciples of and gifts from Set.

Osiris is the enemy of Set, and you must take no action that aids him.

Using the essence of Set to bind another vampire goes aginst the very freedom he champions.

Only the derserving may drink of the river between life and death.

What you do means nothing without your devotion to Set.

## ECHIC\$

Worship Set and uphold his memory with reverence, for too many people have forgotten him and his great cause.

Undermine the rule of law, by which Osiris has abused his power.

Help others to realize their desires, for only desire can set them free. Amass personal wealth and influence, for these are the tools of strength and seduction. Embrace only those who are worthy to serve Set, for otherwise you debase his memory.
